Solid Wood Bending and much more

ABOUT US

Curvetta is happy to introduce itself to the international market with its 35 years of experience in the field of wood processing and particularly in steamed solid wood bending over the last 12 years in Viet Nam.

We are highly skilled in bending solid wood by combining different technologies

Traditional - Steam bending with counter-moulds and oven-drying.

Automated - Radio frequency bending presses.

Compwood system - Use of compressed wood for three dimensional, helicoidal, spiral items and much more.

In addition to our traditional bends for chairs, we are proud of our wide range of products: classic, modern and ship furniture, sport equipment, stairs, works of art, musical instruments, various objects and accessories.

FOREST AT YOUR HOME

CURVETTA PHILOSOPHY

With a team of professionals from **ITALY** and **VIETNAM**, **CURVETTA LTD** develops its own line of modern, functional and aesthetic products with a **FOCUS ON NATURE!** Our philosophy engages quality and nature-friendly solutions.

We are specialized in the following services:

- 1 We import and distribute certified FSC 100% lumber from Europe such as White Oak, Beech, Ash
- 2 Elements in steamed solid bent wood for the furniture industry
- 3 Modern, contemporary, easy, luxury and prototypes, frames, tailored, bespoke and custom made furnitures
- 4 **QRV** - Our new furniture brand, unique creations, never seen before - based on steam bent solid wood
- 5 **CURVY** - Our line of seatings and reproduction of famous designs, from Vienna chairs to Scandinavian style, Japandi

LUMBER

Most of lumber we import comes from European forest such as White Oak, Ash, Beech, Maple, Cherry, Walnut wood FSC100%.

Base types of hard lumber are stored in our warehouses (Europe and Vietnam). All types of hard and soft wood sawn timber are stored in warehouses that meet the highest European standards. Following an additional period of drying, edged and unedged timber is delivered to market. All element are produced to order for a defined purpose from semi-dried wood.

For further information, please contact us.

UNEDGED FSC 100%

EDGED FSC 100%

BENDING

We are highly skilled in steam bending solid wood by combining different technologies:
Traditional - steam and bending with counter-moulds oven-drying.
Properties of the steam solid wood bending:

Finished part has best appearance with continuous end-to-end grain

No glue-up with visible glue lines

Strong, no short cross-grain structural weakness

For further information, please contact us.

PRODUCT FEATURES

The development of the new products starts from the experimentation of Curvetta's Lab. During the first phase of work, some solutions based on forllow criteria:

- ✓ Curvature of solid wood boards of certified origin.
- ✓ Surface treatment by simple sanding or sanblasting.
- ✓ Finishing with self-produced lye with the ashes of our production waste, soap or in any case natural products that tend not to alter the color, texture and original scent of the wood.
- ✓ Combination with local materials and processes (Vietnam).
- ✓ Design based on concepts of simplicity, linearity and lightness with the aim of highlight the properties and characteristics of the strength and tension of bent wood, the beauty of nature and the wood / man symbiosis.
